Zicheng (Jacky) Li

Education

2022-ongoing **Bachelor of Advanced Computing**, *major in Computer Science and Philosophy*, University of Sydney, .

Work Experience

Dec 2022 — ongoing **Trainee Software Developer**, __NOLOGY, NSW.
I entered an intensive 12 weeks of training as a full-stack developer. I have worked on a real client project during the last few weeks of the course. This program allowed me to apply my knowledge and develop industry-level standard of software development.

Dec 2021 — Dec 2022 **Coding instructor**, CODE CAMP, NSW.
I deliver programming concepts in a fun and intuitive manner to children between ages 7-13 in a classroom context. I teach computing fundamentals through project based learning, and inspire children to build various 2D and 3D games so they may come to creatively explore and fully appreciate their learning.

May 2022 — Dec 2022 **STEM tutor**, JUNIOR ENGINEERS, NSW.
I teach various STEM subjects to children of all ages inlcuding aspects of electrical engineer, chemistry, and programming. I would always aim to create an exciting and educational environment as a priority for my students.

2022-ongoing **Community Volunteer**, BENGIO BANK, NSW.
I am a scholarship recipient and ambassador for The Community Bank Homebush. As a scholar I volunteered for the Bank during Strathfield Council's and NSW Government's The Festival of Place's Homebush Street Festival over March and April.
